PUBLIC WORKS CONTRACTORS AND SUBCONTRACTORS - IT'S TIME TO REGISTER WITH DIR!

Contractors and subcontractors will need to be registered with the Department of Industrial Relations in order to 1) bid or be listed on a bid for a public works project on or after **March 1, 2015**, or 2) work on a public works project awarded on or after **April 1, 2015**.

- Instructions for completing online application
- Online Application
- Frequently Asked Questions

Who is required to register? Any contractor or subcontractor who bids on or performs work that requires the payment of prevailing wages under state law must be registered with DIR. This includes not only work performed by the building and construction trades, but also other types of work, including trucking, surveying, and testing, if that work is subject to prevailing wage requirements.

What does it cost? The cost is **$300** for a contractor or subcontractor to apply and register. If a contractor or subcontractor has more than one entity or business that bids on or performs public works, then each of those entities must be registered with DIR.

What are the requirements? To qualify for registration, the contractor or subcontractor must (1) have workers' compensation coverage for their workers, (2) be licensed by CSLB if applicable to their trade, (3) not owe back wages or related penalties under a judgment or order, (4) not be debarred from performing public works by the state or federal government, and (5) not have previously bid or worked in violation of the registration requirement. (*Please see Labor Code Section 1725.5 for complete text of requirements and exceptions.)

How difficult is it to register? Most contractors or subcontractors who have registered say that it is an easy process which can be completed in 10 minutes or less. Paying the registration fee by credit card will usually result in confirmation of registration (and a registration number) within 24 hours. Other payment methods require longer to process.

How will public agencies and other contractors know who is registered? Upon registration, the contractor or subcontractor's name and registration will be added automatically to a searchable data base on DIR's website.

For more information, please see Fact Sheet on New Public Works Contractor Registration Law [SB 854]. Also visit our Frequently Asked Questions site.
