WHY YOU WANT TO SERVE:

Short answer: to offer my expertise in HR and open-minded, analytical ability in service to the employees and management of the county of SLO.

Longer answer: I have thought for several years that I would, if ever given the opportunity, like to serve on the Commission. Because I have eliminated most other active affiliations I will have the time to offer it the attention that the parties deserve. I bring a balanced perspective. It is my philosophy that management and staff ultimately have the same goal: effective and efficient service to citizens. One of the means to that end is the training of supervisors in the fair treatment of employees, who can realize job satisfaction by having meaningful work, the opportunity to do what they are best at every day, the chance to grow, and management recognition. I would be honored to bring my non-biased, positive outlook to this body.
