

EXHIBIT "A" – REVISED FINDINGS FOR APPROVAL

CEQA Exemption

- A. The project qualifies for a Categorical Exemption (Class 3) pursuant to CEQA Guidelines Section 15303 because it is considered a conversion of the use of a small existing structure.

Minor Use Permit

- B. The proposed project or use is consistent with the San Luis Obispo County General Plan and the County's certified Local Coastal Program because the use is an allowed use and as conditioned is consistent with all of the General Plan policies.
- C. As conditioned, the proposed project or use satisfies all applicable provisions of Title 23 of the County Code.
- D. The establishment and subsequent operation or conduct of the use will not, because of the circumstances and conditions applied in the particular case, be detrimental to the health, safety or welfare of the general public or persons residing or working in the neighborhood of the use, or be detrimental or injurious to property or improvements in the vicinity of the use because the proposed vacation rental does not generate activity that presents a potential threat to the surrounding property and buildings. The operational standards for vacation rentals as set forth in Coastal Zone Land Use Ordinance section 23.08.165 have been added as conditions to this project. Because these standards further limit parking requirements, number of occupants and the designation of a 24 hour property manager contact, potential impacts to surrounding property owners can be avoided. The proposed conditions of approval have routinely been added to other minor use permits for establishment of vacation rentals. This project is subject to Ordinance and Building Code requirements designed to address health, safety and welfare concerns.
- E. The proposed project or use will not be inconsistent with the character of the immediate neighborhood or contrary to its orderly development because the existing residence will not change and, as conditioned, the vacation rental use will not conflict with the surrounding lands and uses.
- F. The proposed project or use will not generate a volume of traffic beyond the safe capacity of all roads providing access to the project, either existing or to be improved with the project because the project is located off San Luis Street Parkway, and no additional traffic is associated with the project because it is using an existing approved residence as a residential vacation rental. Additionally, this vacation rental will have a condition of approval that will limit the number of cars associated with the vacation rental to two cars per rental period and require the two cars to park inside the existing 2 car garage.

Coastal Access

- G. The proposed use is in conformity with the public access and recreation policies of Chapter 3 of the California Coastal Act, because the project is not located between the first public road and the shoreline and is not directly adjacent to the coast and the project will not inhibit access to the coastal waters and recreation areas.
