

County of San Luis Obispo Local Hazard Mitigation Plan

C. San Luis Obispo County Flood Control and Water Conservation District 2013 adoption resolution

Adoption by Local Governing Body: §201.6 (c)(5)

June 18, 2013

To the Citizens, Visitors, Employees, and Officials of San Luis Obispo County:

As the costs of damage from natural disasters continue to increase, the County of San Luis Obispo continues to realize the importance of identifying effective ways to reduce vulnerability to disasters. Natural hazard mitigation plans assist communities in reducing risk from natural hazards by identifying resources, information, and strategies for risk reduction, while helping to guide and coordinate mitigation activities.

As a result, the County of San Luis Obispo has developed this updated and revised Local Hazard Mitigation Plan (LHMP) which provides guidance on how to reduce risk from natural hazards.

The LHMP works in conjunction with the other County plans, including the General Plan, and hazard mitigation plans developed for specific programs such as flood control and fire prevention.

This letter promulgates the San Luis Obispo County Local Hazard Mitigation Plan and constitutes the adoption of the Plan. This Local Hazard Mitigation Plan becomes effective on approval by the San Luis Obispo County Flood Control and Water Conservation District on the date indicated below.

Chairperson, Board of Supervisors
San Luis Obispo County Flood Control
And Water Conservation District
