Case#: COD2012-00149

Good Morning Mike.

This is a follow-up to see if you have any new information for me yet on this property and clean-up / secure process..? Also, to ask you if you can provide the name and mailing address of the Mortgage Company responsible for this property, so that I can include them in the service of the required "second" notice, which must be recorded and sent out no later than March 19th, as the Nuisance Abatement Hearing is still set for April 16th. I can't cancel this hearing until I have either a "solid" agreement for clean-up / securing of this property, or the work is already done...

I have just checked the Recorded records and still find nothing to show that foreclosure is imminent, which still indicates that the Inquito's remain as the owners, so they too (and the property) will also receive the second notice..

Thank you in advance for whatever you can do to help with this,
