Subject: water district

Dear Board of Supervisors,
I am writing this to let you know the Smith Family: Denise, Timothy, Catherine, Stephanie, Abigail, Cassandra and Christopher, definitely support this effort to form a water district. Without water, we are not sure how much longer we can live on our property on Geneseo Rd.
Thank you for your consideration.
Denise Smith and Family

Subject: Vote to delay formation of Water district

Hello Debbie,

Please vote to delay sending any proposed legislation to form a water district for the Paso Robles basin to Sacramento via our Assemblyman Katcho Achadjian. The public has not been adequately informed and the proposed legislation has not been made public. The people over laying the basin have the right has access to any proposed legislation and that opportunity has not been given.

Thank you,
Joseph Sulse

Creston, CA 93432

Subject: Proposed water district

As a concerned citizen residing in Creston, for the past twelve years, I share Mr. Sulse's reservations regarding a quickly formed water district in this area. I can tell you the organizers of this proposal don't represent me, nor have they made any attempts to inform me, seek my counsel, or offer my opinion. I have no doubt I am not alone in that respect. I oppose any proposed legislation or action intended by any entity that fails to inform those whom it will affect.

Best regards, Coe Lagos.

As having been a resident and having family and friends living there now. I am encouraging a formation of a water district that will supply water to the outlying areas that are in and on Wells, Wells that have gone dry. My sister and I have been up several times to give testimony when the hearings were happening. I think we all understand the future of the area is to have water that is supplied to a general well and supplied directly to the residence. Also the area is highly dependent upon tourism and if people have to leave their homes this. Will affect Family and friends from coming up to the area to spend time with them and enjoy the beautiful central California. Sincerely James and Jeannette Nailor

Comments or questions (8,192 characters max):	Regarding establishing a water district in the county: As residents and property owners in the county, we are strongly opposed to the establishment of a water district, installation of meters and enforcement of fees on well owners. The Board continues to pursue policies that restrict individual rights and responsibility (plastic bag ban for example) without taking the issues to the voters. When the rights of taxpayers are infringed in any way, the decision should not be the Board's alone and requires a vote of the residents who are impacted. As a working taxpayer, I am NOT able to attend Board meetings during the day and, at a minimum, pending decisions of this magnitude should be mailed to county residents for input. Other water conservation methods should be the focus of the Board. Securing more reliable water sources and establishing realistic water capture strategies are better than

looking at control and taxing solutions. All existing well owners should be exempt from any new regulations and enforcement. New development may be something to look at but only with voter approval. Please keep emotion, false premises (climate change) and distorted facts out of your agenda and vote NO on the establishing the new water district. Directly ask your constitutes before making decisions for US!
