Re: *Hydraulic Fracturing (Fracking)*

Dear Supervisors:

I write on behalf of Cambria Community Services District ("CCSD") Board of Directors to express our concerns of hydraulic fracturing ("fracking") and its potential environmental effects, including contamination of ground water, depletion of fresh water, risks to air quality, noise pollution, the migration of gases and hydraulic fracturing chemicals to the surface, surface contamination from spills and flow-back, and the health effects of these.

The adverse health and environmental effects of fracking activity in the unincorporated areas are potentially far reaching, as a result of shared resources, water, air, roadways and fault line. The CCSD, on behalf of its citizens, calls on the County Board of Supervisors to take a proactive approach in adopting a countywide prohibition on fracking until the County can assure protection of the health and quality of life of all our residents.

Thank you for your consideration in promptly addressing this very important issue.

Sincerely,

A handwritten signature in black ink, appearing to read "James Bahringer".

James Bahringer
CCSD Board President
