Hi Ryan,

We have been working on additional materials that include historic Cal Trans data for the area. To that end, it has taken us a little longer than we expected to get the information and now we are preparing a report to submit to you. In addition we would like to have the opportunity to present this report and findings to the Coastal Commission geologist and have a discussion with the Coastal Commission staff. Because of this I would like to respectfully request a continuance from the October 7 Board of Supervisors hearing until early November. We appreciate everyone's patience on this matter and hopefully understand that we are trying to present all of the materials to the best of our ability for consideration. Please let me know if you have any questions.

Thanks,

Cathy
