Status	Item
✓	Title Report <u>4001-4647391</u>
/	Lot line adjustments are limited to 4 or fewer parcels. Conforms to the County's General Plan, Specific Plan, Local Coastal Program, and zoning and building ordinances. Parcel design and minimum lot area. These criteria may be considered satisfied if the resulting parcels maintain a position with respect to said criteria which is equal to or better than such position prior to approval or conditional approval of the lot line adjustment.
/	The size and scale of the prints shall be the same as those for tentative maps set forth in Section 21.02.044.
/	Record data. All exterior and interior lines shall be shown on the map and shall be identified by course and bearing description, based on survey data, calculated data, or information of record. If a survey is done, any monuments established must be shown on a record of survey filed in accordance with the Land Surveyors Act, Business and Professions Code sections 8700, et seq.
/	Lot lines. Proposed new lines and lines to be eliminated shall be so identified in written notation or by legend. Lines to be eliminated shall be dashed or otherwise drawn so as to be clearly distinguishable from and subordinate to remaining and new lines.
/	Lot areas. The area of all existing and proposed parcels shall be identified and listed in acres or square feet.
/	Existing structures. All existing structures, wells, septic tanks, driveways, and other improvements located on the original parcels shall be accurately located, identified, and drawn to scale. The distance between structures, the distances from existing structures to the boundary lines of the existing and the proposed parcels, and the height of each structure shall be shown. Such distances shall be established by a registered civil engineer's or licensed land surveyor's survey when deemed necessary by the planning department.
/	Streets. The locations, names, county road numbers, and widths of all adjoining and contiguous highways, streets and ways.
/	Easements. The locations, purpose, and width of all existing and proposed easements, streets (with proposed names) and appurtenant utilities.
/	Drainage. The approximate location of all watercourses, drainage channels, and existing drainage structures.
/	Landforms. The approximate location of other topographic or man-made features, such as bluff tops and ponds.
/	Lakes and ocean. Approximate high-water lines in lakes or reservoirs, and the mean high tide line of the ocean.
/	Flood hazard. The location of all areas subject to inundation or Stormwater overflow.

SUBJECT: Lime Mountain Lot Line Adjustment SUB2014-00006 (1784)

Comments

The applicant proposes to reconfigure eleven existing parcels ranging in size from 40 to 324 acres to create four parcels of approximately 388, 476, 658, and 530 acres each. The project site is located on Chimney Rock Road, west of Paso Robles. The project site has historically been used for cattle production and mining. The lot line adjustment is requested to consolidate agricultural uses and the mining operation.

The property is currently under a Williamson Act contract and the proposed parcels will need to enter into a new contract.

The Agriculture Department considers the proposal to be **better than** the existing parcel configuration in terms of agricultural resources. This determination is based on a comparison of the proposed and existing parcels when considering potential long-term impacts to agricultural resources and operations.

Comments are based on current departmental objectives to conserve agricultural resources and to provide for public health, safety and welfare, while mitigating negative impacts of development to agriculture.

If you have questions, please call 781-5914.

On-site utilities should remain on the parcel served (water & wastewater) - it appears this is the case
