

January 5, 2015

Attn: Mr. Dan Buckshi

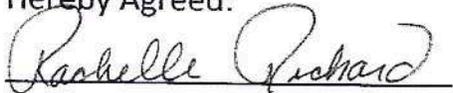

LETTER OF INTENT

It is the City of Atascadero's intent to participate in the County Parcel Data Acquisition and Mapping project for the purpose of acquiring and mapping countywide parcels in a geographic information systems (GIS) format. Once the project is completed, the **City will be given open ended access to the GIS data at no additional charge to utilize and back up as needed** and will include Assessor attributes such as ownership, address, property value, among others. The City understands that the **County will update the parcel data on at least a monthly basis and the City will have access to these updates in perpetuity.**

The City understands that the cost for participation is \$28,444.28 and that this amount will be made as either a one-time payment, or three installments in the amount of \$9,481.43 annually. The annual payments will be due August 1 of each year beginning in 2015.

It is understood that the City's approval is required before participation in this project is confirmed. It is further understood that Desiree Ramos, GIS Program Manager, 805-781-1571, dramos@co.slo.ca.us, will be the ongoing County contact for this project.

Hereby Agreed:

Rachelle Rickard/City Manager
City of Atascadero

Desiree Ramos/GIS Program
Manager, SLO County
