33	Senior housing	9/7/2014 1:22 PM
34	While this county has had financial access to TBRA, CDBG, ESG, VASH and Sect. 8 voucher funding ,none of this helps if we don't have the affordable low income housing for it to be used. I have many clients including Veterans who have a voucher and qualify for TBRA assistance but cannot find landlords that will accept them or find housing they can afford. Lets think outside the box for solutions. We need to change our building code system to allow tiny homes on wheels to be built on land with a community dwelling for accessory services such as bathrooms, laundry and communal area in addition to allowing people to have smaller dwellings in their back yards to fill our need of affordable housing. Oregon and other states are doing this type of building successfully on public land and at a lower cost compared to regular build. There also needs to be more incentives for developers to build low income housing complexes to offset the cost of land in SLO county. It seems futile to build and fund a large homeless shelter when we don't have enough housing stock to move these people to stability.	9/5/2014 4:21 PM
