**Subject :** June 16th meeting

Dear Adam Hill and all other Board Supervisors:

My name is Betty Woody I am 89 and grew up in Avila Beach. I remember when neighbor knew and helped neighbor. We were a laid back funky friendly town. Then the big oil spill. I realized that change would come and I accepted that. What I didn't know was that for the next 17 years I would be attending meeting after meeting. First with Supervisor Peg Pernard than Supervisor Jerry Lenthall now with Supervisor Adam Hill. Concerned Avila residents have also attended meetings with AVAC and County Planning. After all these meetings it's still talk, talk, talk and no action. When is the talking going to stop and action start? Soon I hope. Our 1980 County General Plan is so out of date it's funny. It should be brought up to 2015 NOW. We still have only our 2 lane road in and out of Avila. Not enough parking for residents and vistors. And like the rest of CA a big water problem. Supervisor Lenthall had 3 hour parking signs installed all over town but with no enforcement what a waste. Now five new huge projects are being proposed for our area. I think our current problems should

be corrected before these projects are even considered..  
Avila had a building moratorium for  
23 years I think it's time to bring it back.until our County  
General Plan is brought up to show  
how all these new projects will effect our community.

Will you please help us by delaying these projects.

Have a Hoppy Good Day

Betty Woody

Adam, Will you please see that all supervisors get a copy of  
my e-mail.

**Subject:** Support for Port San Luis Harbor Terrace campground project

---

Dear Supervisor:

I want to register my strong support for the Port San Luis Harbor Terrace campground project and urge you to deny the appeal.

As an avid touring cyclist, I am thrilled with the idea of having hiker/biker campsites to encourage carbon-free tourism and encourage more people to visit our County. With the proximity to the coastal trail, the campground will also provide accommodations for through hikers. Lastly, having been on several kayaking trips, I am grateful for the opportunity to kayak the coast and have safe camping along the way.

The project will replace the RV parking that currently blocks the ocean view and increases risk for cyclists in the area. It will also provide very affordable alternatives for persons who cannot afford the upscale hotels currently in Avila. I urge you to deny the appeal and let the project move forward.
