Comments or questions (8,192 characters max):
Once again I am contacting the Board of Supervisors to endorse POWR and voice my objections to the formation if a water district. The formation of a water district in the agricultural area of PaSo Robles where I live would cause a hardship. I cant imagine how I would pay for the water AND maintain my well. The Average monthly maintenance cost since I bought the property in 2009 is \$323. Does a water district advocate ever think about the pump repairs? The electrical repairs? The replacement cost ? The installation of a new electrical pile that services the well? That alone cost over \$5000! We aren't getting free water!!!! Since we maintain the well and pump from our ten acres we have water rights. Try being a senior citizen with listed SS income and do the math. We watch every penny every day of our lives. We seem to be the forgotten ones so please keep us alive by not forming a water district for country folks.
