Subject: Call for Election regarding the Formation of the Paso Robles Basin Water District-LAFCO File # 2-R-15 Resolution 2015-05

Dear Mr. Gong:

On September 17, 2015, San Luis Obispo Local Agency Formation Commission conditionally approved the formation of the Paso Robles Basin Water District. LAFCO conditioned the approval so that the District shall only be formed if the land owner-voters (as defined in AB 2453) approve the formation of the District and the proposition 218 vote approving the funding of the District. Both of these measures must pass for the District to be formed. Also, the election for the Board of Directors shall be completed at the same time.

Pursuant to the Cortese-Knox-Hertzberg Act, GC 57000(d)(e), the San Luis Obispo LAFCO requests that the County Board of Supervisors direct the County Clerk to call a special election consistent with the Principal Act (Water Code 34000) of the District, and other applicable laws. GC 57133 (k) provides the following instructions for the formation ballot question:

For a district formation, use form of question under principal act of district being formed. If none, use substantially the following form:

"Shall the order adopted on September 17, 2015, by the Local Agency Formation Commission of San Luis Obispo County ordering the formation of a district in the territory described, known as the Paso Robles Basin Water District, be approved?"

On behalf of the Commission it is hereby requested that the Board of Supervisors call the election and direct the elections official to conduct the election to be held within the District boundaries approved by LAFCO.

RESOLUTION NO. 2015-05

**RESOLUTION MAKING DETERMINATIONS AND APPROVING THE
FORMATION OF THE PASO ROBLES BASIN WATER DISTRICT, SPHERE OF INFLUENCE,
AND ENVIRONMENTAL DETERMINATION**

The following resolution is now offered:

WHEREAS, application has been made to this Commission pursuant to the Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000 (Government Code Sections 56000 et seq.) and AB 2453 for consideration of a proposal for the formation of the Paso Robles Basin Water District as shown in Exhibit "A" attached hereto and made a part hereof; and

WHEREAS, a Resolution of Application for the formation of the Paso Robles Basin Water District, a Water District as defined in the California Water Code, Section 34000 et seq., as amended by AB 2453 has been filed with the Executive Officer of the Local Agency Formation Commission of San Luis Obispo County, California, Exhibit A by the San Luis Obispo County Board of Supervisors, and said application complied with all the requirements of law and the Commission; and

WHEREAS, the Executive Officer has given the notices required by law and forwarded copies of his report to officers, persons and public agencies prescribed by law; and

WHEREAS, the matter was set and noticed for public hearing at 5:30 p.m. on August 20, 2015 at the Paso Robles Event Center and at 9:00 a.m. on September 17, 2015 in the County of San Luis Obispo Board of Supervisors Chambers; and

WHEREAS, this Commission has considered the application materials, studies and other documentation at the August 20, 2015 and September 17, 2015 public hearings which are

Resolution No. 2015-05

incorporated by reference herein and the Transition Plan found in Exhibit B; and

WHEREAS, on August 20, 2015 and September 17, 2015 this Commission heard and received, all oral and written protests, objections and evidence, which were made, presented or filed, and all persons present were given the opportunity to hear and be heard in respect to any matter concerning this proposal; and

WHEREAS the Commission hereby finds that the formation of Water District will not have a significant effect on the environment, and is Categorically Exempt from the provisions of the California Environmental Quality Act (CEQA) under Class 7, 8, & 20 and Section 15320, "Changes in Organization of Local Agencies" and General Rule Exemption authorized by 14 California Code Regulations Section 15061, subdivision (b)(3).; and

WHEREAS, the conducting authority process does not apply pursuant to the 37905(d) of the Water Code because an election by the landowners considering formation shall be completed in accordance with AB 2453.

WHEREAS, the Commission duly considered the proposal and finds that the formation should be approved with the following conditions:

1. That the Board of Directors of the Paso Robles Water Basin District (District) be composed of nine members qualified and elected as provided for in Section 37911 of the California Water District Law (California Water Code Section 34000 et seq.); and
2. That pursuant to the application the District is authorized to exercise all powers and authorities set forth in the California Water District Law subject to the following restrictions:
 - a. The District shall not have the authority to adopt emergency ordinances unless the California Water District Code is amended by the state legislature and signed by the Governor to require an affirmative vote of at least seven members of the Board of Directors to adopt such an ordinance.
 - b. The District must obtain consent from the County of San Luis Obispo (County), the San Luis Obispo County Flood Control and Water Conservation District (Flood

Resolution No. 2015-05

Control District) or other relevant agency to conduct activities that have been normally or historically undertaken by the County, the Flood Control District or other agency as required by Water Code Section 37903.

- c. The District's powers to export, transfer, or move groundwater underlying the District outside of the District's approved boundary shall not be active and are subject to condition number six of this approval. For purposes of this condition and condition number six, "groundwater" shall have the meaning set forth in Water Code Section 37900, subdivision (a)(12).
3. That formation of the Paso Robles Basin Water District shall be contingent upon a successful vote on the formation pursuant to Water Code Section 37905, and approval of a Proposition 218 proposal capable of funding the activities of the District. This action shall also establish an appropriations limit in the amount of \$950,609; and
4. That future projects proposed by the Paso Robles Basin Water District shall be analyzed and evaluated in accordance with any and all applicable laws (e.g. Government Code Section 34000 et al, CEQA, and others).
5. That the effective date of the Paso Robles Basin Water District will be determined by the certification of the election results by the Board of Supervisors and the filing of the certificate of completion by the LAFCO Executive Officer with the County Clerk-Recorder's office.
6. If formed the District shall be prohibited from exporting, transferring, or moving groundwater underlying the District (including groundwater pumped into an above-ground storage facility) to areas outside of the District's boundaries.
7. The applicant must provide a map and legal description to the Board of Equalization (BOE) specifications for the LAFCO-approved boundary of the Paso Robles Basin Water District prior to the recording of the Certificate of Completion.
8. That the Board of Supervisors of the County or the Flood Control District, as applicable,

Resolution No. 2015-05

shall call for the formation vote and Board of Director elections, conduct the Proposition 218 proceeding and set the appropriations limit as soon as feasibly possible and consistent with Government Code Section 57000.

NOW, THEREFORE, the San Luis Obispo County Local Agency Formation Commission determines the following:

1. The territory comprises approximately 390,000 acres or 609 square miles and is found to be inhabited (having more than twelve registered voters) as defined in §56046 of the Government Code.
2. The formation of the District is assigned the following distinctive short-form designation: **Paso Robles Basin Water District**
3. Based on the evidence, analysis, and conclusions set forth in this resolution and the Executive Officer's report, the Commission finds that the formation of this District serves to further the purposes of the Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000 including, but not limited to, the following: efficiently providing government services and facilitating the orderly formation and development of local agencies based upon local conditions and circumstances.
4. The Commission determines, based upon the services currently provided to the affected territory, that the Paso Robles Basin Water District can feasibly provide the needed services in a more efficient and accountable manner than the County of San Luis Obispo.
5. The Commission adopts the determinations regarding consistency with LAFCO law and Commission Policies contained in the staff report for this proposal and incorporates them by reference herein.
6. The affected territory within which the special election shall be held includes the entire area within the boundaries of the proposed District, as described by Exhibit A attached hereto.

Resolution No. 2015-05

NOW, THEREFORE, BE IT RESOLVED AND ORDERED by the Local Agency Formation Commission of the County of San Luis Obispo, State of California, as follows:

1. That the recitals set forth hereinabove are true, correct, and valid.
2. That the Categorical Exemption prepared for this project is hereby approved as complete and adequate and as having been prepared in accordance with the provisions of the California Environmental Quality Act.
3. The Executive Officer, on behalf of the Commission and in compliance with this resolution and State law, hereby requests that the San Luis Obispo County Board of Supervisors direct the County Elections Official to conduct the necessary election, setting the matter for consideration of the voters of the affected territory on a date consistent election law and the Cortese-Knox-Hertzberg Act. The Executive Officer is directed to coordinate with the County Clerk to formulate the election questions consistent with the Commission's determinations set forth herein.
4. That the Executive Officer of this Commission is authorized and directed to mail copies of this resolution in the manner provided by law.
5. That Formation of the Paso Robles Basin Water District is hereby conditionally approved.
6. Pursuant to §56898 of the Government Code, the Executive Officer will prepare for the Commission's review an Impartial Analysis of the proposed District formation; after the Commission has approved or modified the Impartial Analysis, it shall direct the Executive Officer to submit it to the elections official no later than the last day for submission of ballot arguments.
7. The regular County assessment roll will be used.
8. No existing bonded indebtedness shall be affected by this change of organization.

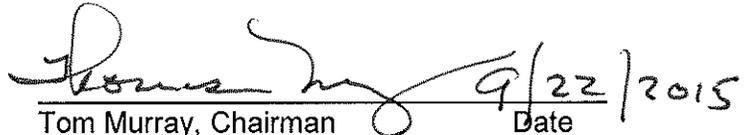

Upon a motion by Vice-Chairman Mecham, seconded by Commissioner Gibson to find the formation categorically exempt from CEQA pursuant to CEQA Guidelines Section 15320 (Class 20) and a General Rule Exemption and on the following roll call vote and to form the Paso Robles Basin Water District subject to the above-listed terms and conditions:

- 515. Thence North 600 feet along the east line of said Section 7 to the southwesterly line of US Highway 101;
- 516. Thence northwesterly 8700 feet along said southwesterly line to the northerly line of San Luis Obispo County and the point of beginning.

AND TOGETHER WITH THE FOLLOWING PARCEL:

Parcel 1 of COAL 02-0276 filed February 2, 2004 in Book 60 Parcel Maps at Page 37 in said Recorder's Office;

EXCEPT therefrom all of the territory described below:

All that portion within the incorporated boundaries of the City of El Paso de Robles.

All that portion within the boundaries of the San Miguel Community Services District as described in the Certificate of Completion recorded February 1, 2000 in Document No. 2000-005426 of Official Records.

All that portion within County Service Area 16.

ALSO EXCEPTING THEREFROM all that portion of Lot 117 of said "Map of the Subdivisions of the Huer Huero Rancho and Adjacent Lands" filed in Book A of Maps at Page 110 as described in the grant deed recorded January 8, 1964 in Volume 1278 of Official Records at Page 115 in said Recorder's Office.

END OF DESCRIPTION

Total Area within described boundary = 552 square miles

Transition Plan for the Paso Robles Basin Water District

Supplemental Information Regarding a Plan Authorizing the Paso Robles Basin Water District (Water District) to Engage in Activities Normally and Historically Undertaken by the San Luis Obispo County Flood Control and Water Conservation District (FCD) and/or the County of San Luis Obispo (County)¹

Part 8.2 (commencing with Section 37900) of Division 13 (the California Water District Law) was added to the California Water District Law through Assembly Bill (AB) 2453 (2014). AB 2453 grants to the Water District a number of powers over and above those contained within the general provisions of the California Water District Law subject to review and approval by the San Luis Obispo County Local Agency Formation Commission (LAFCO).² In addition, AB 2453 places the following further limitations on the powers of the Water District:

The creation of the district is not intended to and shall not modify the powers of the County of San Luis Obispo and the San Luis Obispo County Flood Control and Water Conservation District, carried out consistent with applicable law, to manage and protect groundwater resources within the County of San Luis Obispo, including the Paso Robles Groundwater Basin.³

If formed, the district shall not involve itself in activities normally and historically undertaken by the county, the San Luis Obispo County Flood Control and Water Conservation District, or other local agency, without the agreement of the agency.⁴

In response to LAFCO's request in its 30-Day Initial Review Letter (dated 6/25/15), this document provides information on the potential process by which the agreement required by Water Code Section 37903 could be obtained. Attachment A lists the primary powers enumerated in AB 2453 that encompass activities normally and historically undertaken by the FCD and/or the County.⁵

The Board of Supervisors, acting as the Board for the FCD, has taken action to support presenting to the voters the question of whether the Water District should be formed. Thus, it is anticipated that the Board of the FCD would generally support the exercise of

¹ Any agreement on the part of the FCD and/or the County authorizing the Water District to involve itself in activities normally and historically undertaken by the FCD and the County is subject to the discretion of the Board of Supervisors of the relevant agency; therefore, this document shall not be construed as committing the Board of Supervisors to any future action regarding said agreement. See e.g. *City and County of San Francisco v. Cooper* (1975) 13 Cal.3d 898 (holding that "a school board cannot, by resolution, bar itself or future boards from adopting subsequent resolutions which may alter earlier established policies").

² Water Code § 37920.

³ Water Code § 37902.

⁴ Water Code § 37903.

⁵ Attachment A does not list powers contained within the general provisions of the California Water District Law. The limitations contained within Water Code Section 37902 and 37903 would presumably apply to such powers that encompass activities normally and historically undertaken by the FCD and/or the County.

groundwater management functions by the Water District within the Water District's boundaries.

A theoretical transition plan includes all of the following steps:

1. The Water District may request to engage in the above-described activities by submitting a resolution approved by its governing board to the County and/or FCD. The resolution must, at a minimum, contain the following:
 - a. A description of the activity(ies) desired to be undertaken; and
 - b. A citation to the section(s) of the Water Code authorizing the Water District to undertake said activity(ies); and
 - c. A statement as to why it is appropriate for the Water District to engage in such activities and how such engagement relates to any current County and/or FCD activities; and
 - d. An identification of any local agency other than the Water District that has the power to engage in such activities under its principal act, the Sustainable Groundwater Management Act (Water Code Section 10720 et seq.) (SGMA) or any other law within the jurisdictional boundaries of the Water District and/or within the Paso Robles Groundwater Basin.
2. Not less than 90 days after receiving the resolution, County staff will bring the item before the BOS for consideration during a public hearing.

Attachment A

Power #1:

WC-37921. The board may adopt ordinances for the purpose of regulating, conserving, managing, and controlling the use and extraction of groundwater within the territory of the district. All ordinances shall be adopted, after noticed public hearings by a majority vote of the board. Notice of the adoption of all ordinances shall be given. The ordinances of the district shall become effective on the 31st day after adoption except that the board may, by the vote of at least four members of the board, dispense with notice of public hearing and adopt an emergency ordinance that shall become effective immediately upon adoption, if the board determines that the public health, safety, or welfare so requires.⁶

Power #2:

WC-37928. The district may collect data and conduct technical and other investigations deemed necessary in order to carry out the provisions of this act. All hydrological investigations and studies carried out by or on behalf of the district shall be conducted by or under the supervision of licensed engineers or other persons qualified in groundwater geology or hydrology.

Power #3:

WC-37929. The district may prepare annually or receive reports on groundwater and supplemental water supplies and conditions in the territory of the district, including groundwater management and conjunctive use objectives and a plan for implementation of those objectives.

Power #4:

WC-37931. In addition to the powers identified here, the district shall have the authority afforded to local agencies as provided in Part 2.75 (commencing with Section 10750) of Division 6 as that part may be amended, consistent with the requirements and limitations of applicable law.⁷

Power #5:

WC-37940. In order to balance the water supply and demand within the Paso Robles Groundwater Basin, the district may do the following:

- (a) Develop, adopt, and implement a groundwater management plan to control extractions from the Paso Robles Groundwater Basin aquifers with the objective of balancing water supply and demand in the region.

⁶ Pending legislation (SB 184) seeks to amend the four-member vote requirement for emergency ordinances to a seven-member vote requirement.

⁷ It should be noted that SGMA amended Water Code Section 10750 et seq. (AB 3030) as follows: "(a) Beginning January 1, 2015, a new plan shall not be adopted and an existing plan shall not be renewed pursuant to this part, except as provided in subdivision (b). A plan adopted before January 1, 2015, shall remain in effect until a groundwater sustainability plan is adopted pursuant to Part 2.74 (commencing with Section 10730). (b) This section does not apply to a low- or very low priority basin as categorized for purposes of Part 2.74 (commencing with Section 10720)." In other words, SGMA renders the power contained within Section 37931 somewhat meaningless.

- (b) The groundwater management plan may also include and address the following:
- (1) Existing groundwater storage.
 - (2) Long-term recoverable storage, including an estimate of nonrecoverable storage.
 - (3) The expected adverse effects of projected extractions.

Power #6:

WC-37942. The groundwater management plan may include a policy for the issuance of new well permits that takes into consideration the location of proposed wells and area of use, projected extractions from the wells, and the effect of the extractions on existing users and on storage. In developing the management plan, the district may consider a ban on new irrigated acreage or new municipal water system wells. The district may include a contingency plan to deal with seawater intrusion, basin contamination, or other risks that could impair the ability to rely on the basin for groundwater.

Power #7:

WC-37950. If the board determines after a noticed public hearing, and consideration of any relevant investigations, studies, and evidence, that groundwater management activities are necessary in order to improve or protect the quantity or quality of groundwater supplies within a groundwater basin or aquifer, the board may, by ordinance, exercise any of the following powers:

- (a) Require conservation practices and measures within the affected portion of its territory.
- (b) Control groundwater extractions by regulating, limiting, or suspending extractions from extraction facilities, the construction of new extraction facilities, the enlarging of existing extraction facilities, and the reactivation of abandoned extraction facilities.
- (c) Commence and prosecute legal actions to enjoin unreasonable uses or methods of use of water within the district or outside the territory of the district to the extent those uses or methods of use adversely affect the groundwater supply within the district.
- (d) Impose spacing requirements on new extraction facility construction to minimize well interference.
- (e) Impose reasonable operating regulations on extraction facilities to minimize well interference, including requiring pumpers to operate on a rotation basis.
- (f) Require extraction facilities to be registered with the district within 30 days of notice being given to the operator of the extraction facility.
- (g) Require that the operator of a registered extraction facility provide the district annually with the following information regarding the extraction facility:
 - (1) The name and address of the operator of the extraction facility.
 - (2) The name and address of the owner of the land upon which the extraction facility is located.
 - (3) A description of the equipment associated with the extraction facility.
 - (4) The location of the water extraction facility.
- (h) Require extraction facilities to be equipped with waterflow measuring devices installed and calibrated by the district or, at the district's option, by the extraction facility operator.
