

**PETITION OPPOSING PROPOSED PSYCHIATRIC FACILITY IN TEMPLETON**

Petition summary and background:

**Whereas**, this facility would be located in the middle of a residential neighborhood full of young children and just miles from four different schools, thereby creating significant public safety risks;

**Whereas**, the psychiatric facility would service patients imported from other counties because its size greatly exceeds the demand for such services in our county, yet the facility would place added burdens on our county's public safety, traffic infrastructure and education resources;

**Whereas**, half of the beds in the psychiatric facility would house school-aged patients, all of whom the Templeton Unified School District would be required to locate and educate under California law, thereby imposing considerable additional costs on our local school district without adequate reimbursement;

**Whereas**, the Templeton community does not have the public safety, mental health, or addiction treatment infrastructure in place to properly handle the transition of the population at a psychiatric health facility back into the community.

**Be it therefore resolved**, that we, the good citizens of San Luis Obispo County, OPPOSE the proposed psychiatric facility.

Action petitioned for:

We, the undersigned, are concerned citizens who urge our leaders to act now to vote against the proposed Psychiatric Facility in Templeton

# PETITION OPPOSING PROPOSED PSYCHIATRIC FACILITY IN TEMPLETON

Petition summary and background:

Whereas, this facility would be located in the middle of a residential neighborhood full of young children and just miles from four different schools, thereby creating significant public safety risks;

Whereas, the psychiatric facility would service patients imported from other counties because its size greatly exceeds the demand for such services in our county, yet the facility would place added burdens on our county's public safety, traffic infrastructure and education resources;

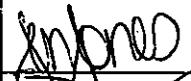

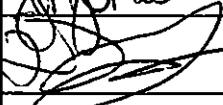

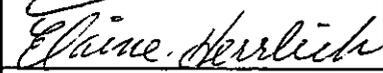

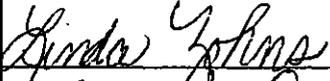

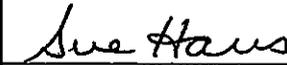

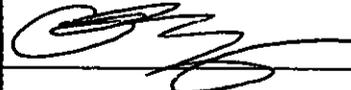

Whereas, half of the beds in the psychiatric facility would house school-aged patients, all of whom the Templeton Unified School District would be required to locate and educate under California law, thereby imposing considerable additional costs on our local school district without adequate reimbursement;

Whereas, the Templeton community does not have the public safety, mental health, or addiction treatment infrastructure in place to properly handle the transition of the population at a psychiatric health facility back into the community.

**Be it therefore resolved,** that we, the good citizens of San Luis Obispo County, OPPOSE the proposed psychiatric facility.

**PETITION OPPOSING PROPOSED PSYCHIATRIC FACILITY IN TEMPLETON**

Petition summary and background:

Whereas, this facility would be located in the middle of a residential neighborhood full of young children and just miles from four different schools, thereby creating significant public safety risks;  
 Whereas, the psychiatric facility would service patients imported from other counties because its size greatly exceeds the demand for such services in our county, yet the facility would place added burdens on our county's public safety, traffic infrastructure and education resources;  
 Whereas, half of the beds in the psychiatric facility would house school-aged patients, all of whom the Templeton Unified School District would be required to locate and educate under California law, thereby imposing considerable additional costs on our local school district without adequate reimbursement;  
 Whereas, the Templeton community does not have the public safety, mental health, or addiction treatment infrastructure in place to properly handle the transition of the population at a psychiatric health facility back into the community.  
**Be it therefore resolved, that we, the good citizens of San Luis Obispo County, OPPOSE the proposed psychiatric facility.**

Action petitioned for:

We, the undersigned, are concerned citizens who urge our leaders to act now to vote against the proposed Psychiatric Facility in Templeton

**PETITION OPPOSING PROPOSED PSYCHIATRIC FACILITY IN TEMPLETON**

**Petition summary and background:**

**Whereas, this facility would be located in the middle of a residential neighborhood full of young children and just miles from four different schools, thereby creating significant public safety risks;**  
**Whereas, the psychiatric facility would service patients imported from other counties because its size greatly exceeds the demand for such services in our county, yet the facility would place added burdens on our county's public safety, traffic infrastructure and education resources;**  
**Whereas, half of the beds in the psychiatric facility would house school-aged patients, all of whom the Templeton Unified School District would be required to locate and educate under California law, thereby imposing considerable additional costs on our local school district without adequate reimbursement;**  
**Whereas, the Templeton community does not have the public safety, mental health, or addiction treatment infrastructure in place to properly handle the transition of the population at a psychiatric health facility back into the community.**  
**Be it therefore resolved, that we, the good citizens of San Luis Obispo County, OPPOSE the proposed psychiatric facility.**

**Action petitioned for:**

We, the undersigned, are concerned citizens who urge our leaders to act now to vote against the proposed Psychiatric Facility in Templeton
