Hard-to-Handle Items <sup>8</sup>	TBD			

**NOTES:**

- "Extra Mileage Charge" refers to the charge for waste collection performed off the standard route street/road/highway in rural or remote areas. An "In Yard" fee may also be added if customer's collection occurs on customer's property.
- Container exchange fee is assessed if the customer requests a change in containers more frequently than the free cleaning service provided once per year.
- "Go Back" fee is charged for missed scheduled collections when the truck is asked to return to empty a customer's container. This charge is used if the truck is still in the area. If the truck is out of the area, the Trip Charge is also imposed for mileage travelled.
- Trip Charge - For ALL non-scheduled collections, if the collection truck is not in the area. Charge is in addition to the collection rate for selected service level. One way.
- "In Yard Fee" is charged to container customers that require the waste collection truck to exit the roadway and enter the customer's property for collection. It is a monthly fee added to the service level cost for collection. Customers requesting such service will provide the company with a damage waiver prior to starting the drive-in service. The "In Yard" fee may be in addition to any extra mileage charges.
- Carts are the property of the garbage company and must be returned when service is stopped or customer vacates the property. If the cart is not returned, the company may impose (on the customer responsible at time when service is stopped) the appropriate fee for each cart.
- "Walk-In" fee is charged for residential customers requesting service in-yard. The truck does not leave the roadway and the container is easily accessed by walking up a standard length driveway.
- Hard-to-Handle Items (such as water heaters, washers, dryers, couches, etc.) may be collected by customer request. Charges for the collection shall include the cost imposed by the landfill or recycler plus the transportation, labor, and overhead costs to the company to provide the collection.

**This increase for Residential service is approximately:** 2.65%  
**This increase for Commercial service is approximately:** 2.92%  
**This increase for Miscellaneous service is approximately:** 2.43%
