DISCUSSION

PROPOSED PROJECT

The applicant is proposing to use an existing single family residence as a residential vacation rental. The residence consists of four bedrooms and a three car garage. The proposed residential vacation rental is not to operate differently (in terms of expected noise, traffic, parking, etc.) than a full time occupied single family residence; therefore conditions for operational standards have been added to this permit. Because these standards set parking requirements, limit the number of occupants and designate a 24-hour property manager contact, potential neighborhood impacts would be minimized.

LAND USE ORDINANCE STANDARDS

Section 23.01.043(c)(4) – Appeals to the Coastal Commission (Coastal Appealable Zone)

The proposed residential vacation rental is considered a Special (S) Use as listed in Coastal Table O, Part I of the Land Use Element, and is therefore appealable to the Coastal Commission.

Combining Designations

Section 23.07.120 – Local Coastal Program Area

The project site is located within the California Coastal Zone as determined by the California Coastal Act of 1976 and is subject to the provisions of the Local Coastal Program.

Special Uses

Residential Vacation Rentals

Coastal Zone Land Use Ordinance section 23.08.165 governs the establishment of residential vacation rentals in the Coastal Zone. However, the standards set forth in this section only apply to the urban areas of Cambria, Cayucos and Avila Beach.

Staff Response: The proposed project is located in the community of Los Osos; therefore, the Residential Vacation Rental Ordinance standards do not apply. While those standards only apply to Zoning Clearances issued in Cambria, Cayucos and Avila Beach, they can be added to a discretionary permit if appropriate. The proposed residential vacation rental is not to operate differently than a full time occupied single family residence; therefore conditions for residential vacation rental operational standards have been added to this permit. Because these standards set parking requirements, limit the number of occupants and designate a 24-hour property manager contact, potential impacts to surrounding property owners can be minimized. The proposed conditions of approval have routinely been added to other minor use permits for establishment of residential vacation rentals.

Does the project meet applicable Coastal Plan Policies: Yes, as conditioned

COASTAL PLAN POLICY DISCUSSION:

Recreation and Visitor Serving Facilities

The Coastal Plan policies for Recreation and Visitor serving uses are focused primarily on commercial recreational uses and commercial lodging facilities such as hotels, motels, bed and breakfast establishments and recreational vehicle parks. These are all classified as transient lodging in Coastal Zone Framework for Planning, Table "O". Residential Vacation Rentals are single family residences by design (or occasionally multi-family residences) and are listed in the Residential use group in Table "O". Although they do serve visitors they are sometimes rented by the month or not rented at all depending on the desire of the property owner. While Coastal Plan Policies generally encourage visitor serving facilities in certain circumstances, residential vacation rentals are not discussed.

Policy 1 – Recreation Opportunities

Coastal recreational and visitor-serving facilities, especially lower-cost facilities, shall be protected, encouraged and where feasible provided by both public and private means.

Staff Response: The proposed project supports this policy by creating visitor serving lodging opportunities within an existing single family residence. The existing residence is within close proximity to many recreational opportunities in the community of Los Osos. Such opportunities include Morro Bay State Park Beaches and Recreation Areas, Montana De Oro State Park, and other facilities for recreational uses. This project is consistent with this policy.

Policy 2 – Priority for Visitor Serving Facilities

Recreational development and commercial visitor-serving facilities shall have priority over non-coastal dependent use, but not over agriculture or coastal dependent industry in accordance with PRC 30222. All uses shall be consistent with protection of significant coastal resources. The Land Use Plan shall incorporate provisions for areas appropriate for visitor-serving facilities

that are adequate for foreseeable demand. Visitor-serving commercial developments that involve construction of major facilities should generally be located within urban areas. Provisions for new facilities or expansion of existing facilities within rural areas shall be confined to selected points of attraction.

Staff Response: This project complies with this policy as it creates visitor lodging opportunities within the urban area of Los Osos and recognizes statewide priority to protect and enhance public opportunities for coastal recreation.

Public Works

Policy 1 – Availability of Service Capacity

New development shall demonstrate that adequate public or private service capacities are available to serve the proposed development.

Staff Response: The project is consistent with this policy because the existing residence currently has water and sewer service from Golden State Water Company. The project does not propose any new development, and no new water or sewer services are proposed with the project.
