Subject: Support for Planning and Public Works' Proposal on Avila Traffic Evaluation Method

I am writing to urge you to Do The Right Thing for Avila Traffic!

At Tuesday's BOS meeting (July 19, 2016), Planning and Public Works will be presenting a proposal to eliminate the current traffic evaluation language from the Avila Area General Plan. I agree that using a second weekday in May is inappropriate for the purpose of determining traffic impacts on Avila. I urge you to support their proposal and let the experts in Planning and Public Works determine how to evaluate Avila traffic.

No other road in the County is subject to a General Plan requirement restricting how Public Works evaluates traffic. The current evaluation method poses safety risks for residents and visitors to Avila. I've heard the slogan, "Let's Get Real" about Avila traffic, and I urge you to listen and act by supporting the proposal this coming Tuesday.
