Woodlands and Limiting the Removal of Native Trees in the Inland Area Hello, I am writing to you today to convey my wholehearted support of the Interim Zoning/Urgency Ordinance of the County of San Luis Obispo Prohibiting the Clear-Cutting of Oak Woodlands and Limiting the Removal of Native Trees in the Inland Area. Oak woodlands are San Luis Obispo County's primary old growth resource, providing irreplaceable ecosystem services as well as contributing to the overall natural beauty of SLO county. The recent clear-cuts of oak trees at Justin Vineyards, the Adelaida, and other sites are a stark and very sad reminder that without adequate public education and enforced protections the county's agricultural and natural heritage is at risk. Please don't let this happen to San Luis Obispo county Sincerely, Gail Bower and long time visitor of SLO area

Dear Chairwoman Compton:

Item No. 1
Meeting Date: July 15, 2016
Presented by: Gail Bower
Rec'd prior to meeting & posted to web on: July 12, 2016

I am writing to you today to convey my wholehearted support of the Interim Zoning/Urgency Ordinance of the County of San Luis Obispo Prohibiting the Clear-Cutting of Oak Woodlands and Limiting the Removal of Native Trees in the Inland Area.

Oak woodlands are San Luis Obispo County's primary old growth resource, providing irreplaceable ecosystem services as well as contributing to the overall natural beauty of SLO county. The recent clear-cuts of oak trees at Justin Vineyards, the Adelaida, and other sites are a stark and very sad reminder that without adequate public education *and* enforced protections the county's agricultural and natural heritage is at risk.

Please don't let this happen to San Luis Obispo county.

Thank you for your strong leadership on this important matter.

Sincerely,
Gail Bower
