Dear Trusted Board Members,

Our community desperately needs your support and votes to protect our environment as we are merely caretakers while we are lucky enough to live on this precious land. And as for our local and generational businesses/ local economy protection from a monopolizing giant who already owns over 50% of the water rights in Kern County and after such intense public outrage so well deserved after Justin Vineyards and Winery clear cut 100 acres of Oaks! I do NOT trust that they could ever make good on any commitment to be remotely trusted to continue to be members of our Great County. They have a poor track record as being terrible stewards of our environment, and the political connections to use their incredibly mighty wealth to gain the power and authority to do just as they please to establish even more wealth and monopoly. PLEASE protect our County!

Supervisor Mecham

Supervisors,

Based on recent activities in the Adelaida area, it is clear that native tree protection is needed via a County ordinance. Staff has prepared an ordinance which should adequately protect native trees, including oaks, during the interim period while a permanent native tree protection ordinance is developed and adopted.

Please approve the urgency ordinance which is provided in your staff report. Also, please direct staff to begin working with stakeholders to develop a permanent ordinance to protect the native trees in SLO County as soon as possible.

Thank you.

RE: Item #1, July 15, 2016
Native Tree Interim Zoning Urgency Ordinance

Chair Compton and Supervisors,

This letter is in support of the proposed Native Tree Interim Zoning Urgency Ordinance as drafted by staff.

Item No. 1
Meeting Date: July 15, 2016
Presented by: Laurie Gage
Rec'd prior to meeting & posted to web on: July 11, 2016

Protection of our native trees from clear-cutting or thoughtless removal in our county is long overdue. The proposed ordinance allows for reasonable use of property by landowners but maintains the integrity of the native species to an acceptable degree.

I urge you to give the proposed Urgency Ordinance your full and unqualified support without modification and to further establish a longer-term ordinance crafted to ensure native tree, woodland and understory protection for our iconic and ecologically irreplaceable native tree species.

Thank you.

July 9, 2016

Chair Compton and Supervisors,

We are writing in support of the proposed Native Tree Interim Zoning Urgency Ordinance as drafted by staff.

There was a time when county regulation of our native trees was not necessary. Most local landowners were good stewards of the land. Unfortunately, those days are past. In light of recent developments, it is obvious that protecting native trees--which in turn provide habitat for other flora and fauna, protect watershed land, and help define the character of our local community--is necessary.

The proposed ordinance protects native trees without overstepping property rights. I urge your board to pass the proposed ordinance as written and keep it in effect while working to establish a permanent ordinance.
