Hi Ramona,

Could you please upload the below email to our website. It is for the Planning Commission hearing tomorrow - Goodrow project / CUP / DRC2015-00086.

Regards,

Holly Phipps, MCRP

Ms. Phipps,

We live at 6850 El Pomar Dr. in Templeton. We received no notice of this application to increase the number of truck trips from 8 to 24 for this project. We are not able to attend the hearing on September 8, 2016 on this request.

We would like to express our opposition to the granting of this request. Although, the composting facility is extremely beneficial, this is a huge increase in traffic, involving very large trucks, in a rural area. We see and hear the trucks daily now, because our house right on the road and you can hear them coming from a long way. We are very directly impacted by this project. If the trucks are scheduled to run only during the day, they would be passing by here more than once an hour. If they are proposing to run them all night it would even be worse. They are not quiet.
