

Please, no more marijuana.

I tired of smelling it and dealing with people high on it. Disgusted by people smoking it in public and while driving down the road. I am mad at the police, for allowing dealers to set up shop on our street. Plus, the police not doing anything about the dopers coming around to buy; nonstop-day and night.

The belief that marijuana is the innocent little lamb of drugs - pure nonsense. I have spent a lifetime witnessing the damage done by this drug. Marijuana users are the most angry, vindictive and violent people around. The fact that our government is signing off on drug use, drug addiction, drug sales/cultivation - says our government is really irresponsible.

Thank you,

Sylvia Stevensen
